**MARELLI MOTORI**

---

# MarelliMotori

Experience accumulated in more than 100 years of activity by **Marelli Motori Spa**, a top supplier in the industrial, petrochemical and marine sectors, ensures technical and commercial services all over the world with a wide range of low and medium voltage rotary electrical machines. For its industrial AC generators factory, CASSIOLI designed and deployed **3 manufacturing lines** integrated with an **automated warehouse** and a **laser driven** cart system (both included in the supply). In particular, the LGV system is assigned to handle load units (up to 1500kg) among the assembly lines, automated warehouse and painting plant areas.
